

Local School Project School List

As of November 4, 2008

The table below lists the location and name of the eleven schools at which the SRTS National Partnership is implementing its Local School Project. This project brings technical expertise, resources and partnerships to an elementary or middle school in a low-income community in each of the ten State Network Project jurisdictions: California, District of Columbia, Georgia, Illinois, Kentucky, Louisiana, New York, Oklahoma, Texas, and Virginia.

Primary funding for the Local School Project comes from the Robert Wood Johnson Foundation, Bikes Belong and the Centers for Disease Control and Prevention. In California, Georgia, Virginia and Washington DC, additional SRTS program leadership is being funded by Kaiser Permanente.
