Hello Scholastic Permissions Team,

My name is [insert name] and I am organizing a [Ruby Bridges Walk to School Day](#) celebration in [insert name of city/town/school district]. Our event will engage [insert number] students in our community, using Ruby’s story as a catalyst for creating positive change and promoting kindness. As part of our event, we would like to implement a Storywalk® installation using *I Am Ruby Bridges*. This would involve us printing the pages of *I Am Ruby Bridges* and displaying them on yard signs along our walking path for students to engage with during the event and outside of the event times. To do so, we would need the PDF file of the book to properly print the illustrations on yard signs. Would Orchard Books (Scholastic) and Ruby Bridges support and permit us to use the book for our Storywalk® and receive the files?

Many thanks for your consideration,
