Safe Routes to School Program Census Project

AGENDA

1. Overview of the Safe Routes to School Census Project
2. Safe Routes to School Programs: Why Do They Matter?
3. How We Conducted the Census
4. Results
5. Conclusions & Recommendations

Overview:
Safe Routes to School Program
Census Project

SAFE ROUTES TO SCHOOL PROGRAM CENSUS PROJECT

In a nutshell:

- Aim was to inventory & gather information on local Safe Routes to School programs across the country through an online survey

Goal:

- Develop better understanding of scope, nature & effects of these programs
- Identify needs from the field, research gaps, etc.

Results:

- Hundreds of surveys from 44 states plus DC provided new learnings & insights

Safe Routes to School Program Census Respondents

Why Do Safe Routes to School Programs Matter?

Benefits of Safe Routes to School

COST SAVINGS

- Household savings from reduced gas & car use
- Education budget savings through reduced student busing costs

TRAFFIC SAFETY

- Reduced traffic injuries & dangers for students and community members at arrival & dismissal through street improvements near schools
- More chances to learn & practice road safety for students

CLIMATE BENEFITS AND CLEANER AIR

- Fewer student asthma attacks due to less driving & reduced air pollution results
- Cleaner air & reduced greenhouse gas emissions

SAFETY FROM CRIME

- Increased safety from crime & violence due to more people on the streets, good lighting & better street design
- Less harassment, bullying, or violence when students walk or bike together or with adults

COMMUNITY CONNECTEDNESS

- Stronger student friendships & relationships through walking & biking together
- Positive social connections for families & neighbors

HEALTHIER STUDENTS

- Better health & stronger bones, muscles & joints through more walking & biking
- Reduced risk of chronic disease, diabetes, & obesity

SCHOOL TRANSPORTATION FIXES

- Solutions to reduced or non-existent bus service through Safe Routes to School
- Reduced traffic congestion at pick-up/drop-off times

BETTER ACADEMIC PERFORMANCE

- Better focus, improved concentration & less distraction for students who are active before school
- Fewer absences and less tardiness when students walk or bike in groups

Safe Routes to School increases the number of kids getting healthy exercise on the way to school

In schools participating in Safe Routes to School programs

32.4%
of students walked or biked

In schools **NOT** participating in Safe Routes to School programs

20.2%
of students walked or biked

The 6 E's

Education

Evaluation

Encouragement

Enforcement

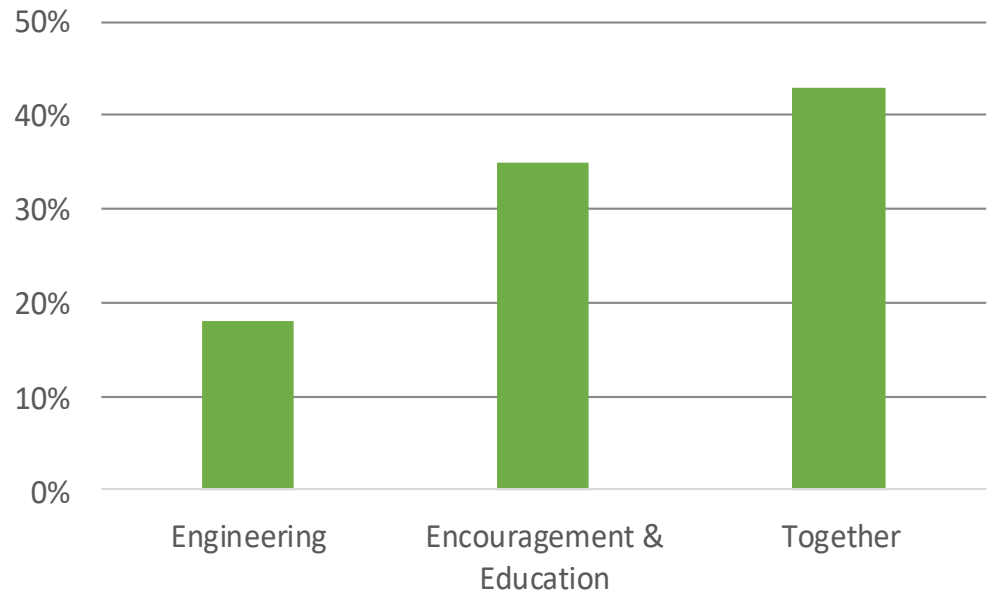

Equity

Why the Six E's?

Comprehensive approaches are effective

Increases in Walking & Biking to School

How We Conducted the Census

HOW WE CONDUCTED THE CENSUS

- Inventoried and gathered information on local Safe Routes to School programs across the country through an **online survey**
- Collected survey info on national basis, & dug deep in 4 states (New York, Nevada, Illinois and Michigan)
- Developed reports (national & for 4 focus states)
 - Safe Routes to School policy environment
 - Snapshot of local programming
 - Observations and recommendations

RESULTS

Big picture:

- 511 total submissions
- 427 that weren't duplicates & met our criteria
- 15 from statewide programs
- Final results included DC & 44 states (every state except Alaska, Arkansas, Mississippi, Kentucky, West Virginia, Connecticut)
- States with the most respondents included: California, Illinois, Michigan, Minnesota, Ohio, Oregon, Virginia
- Limitation: quantitative results not representative

Basic Characteristics of Programs

Program Structure: What Area Do Programs Serve?

Host or Sponsoring Agency (Multi-School Programs)

Title 1 Schools

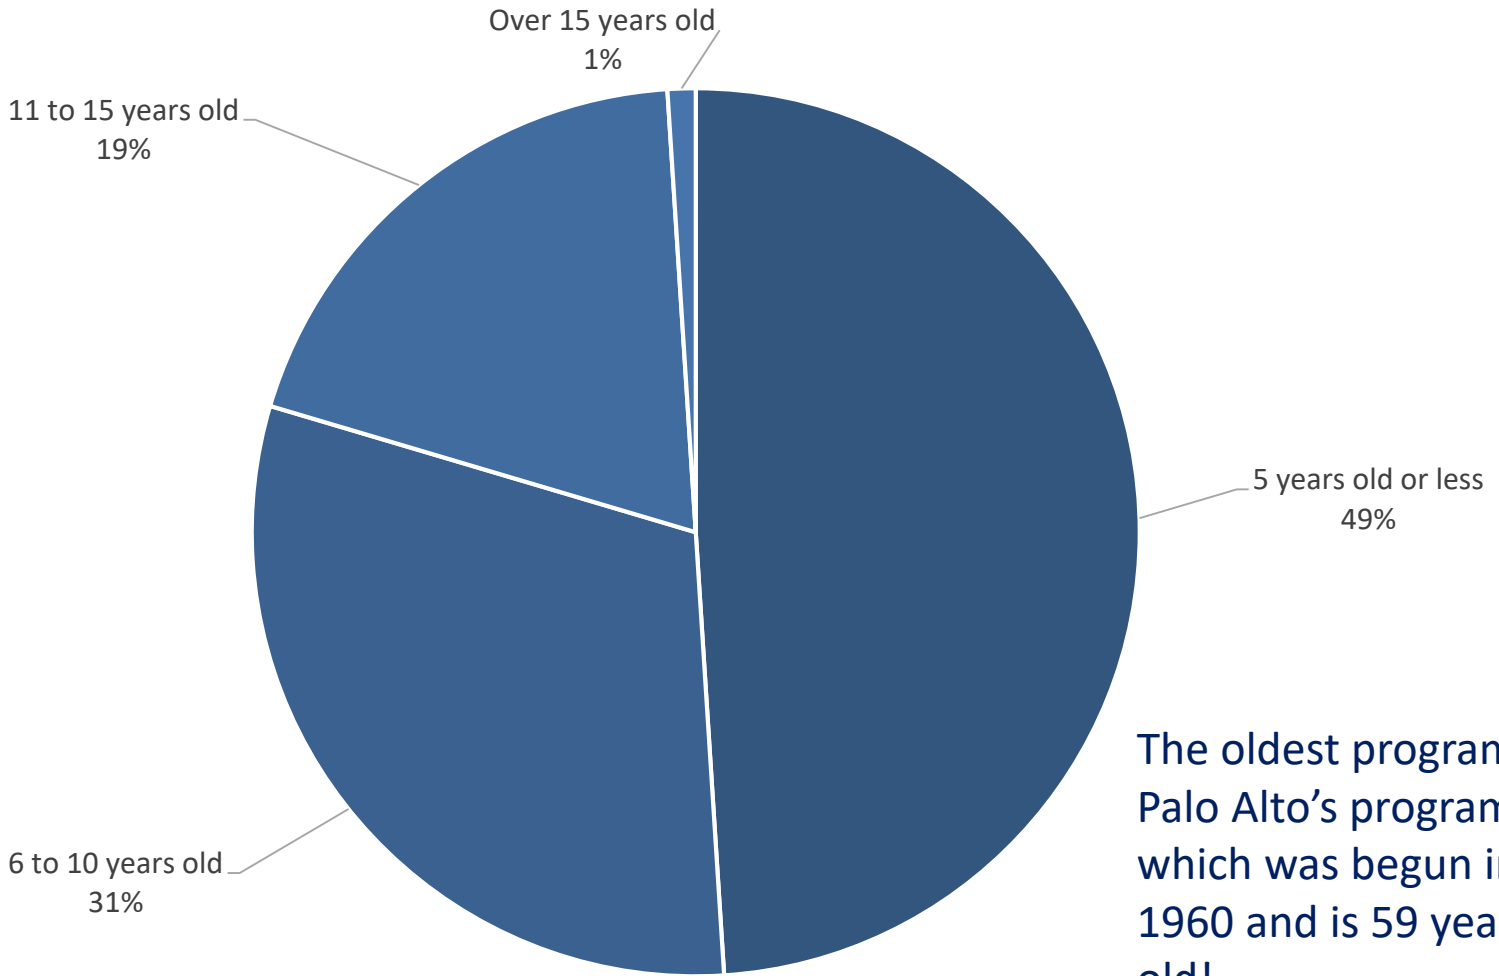

Predominant Student Race/Ethnicity

Rural/Suburban/Urban

Age of Program

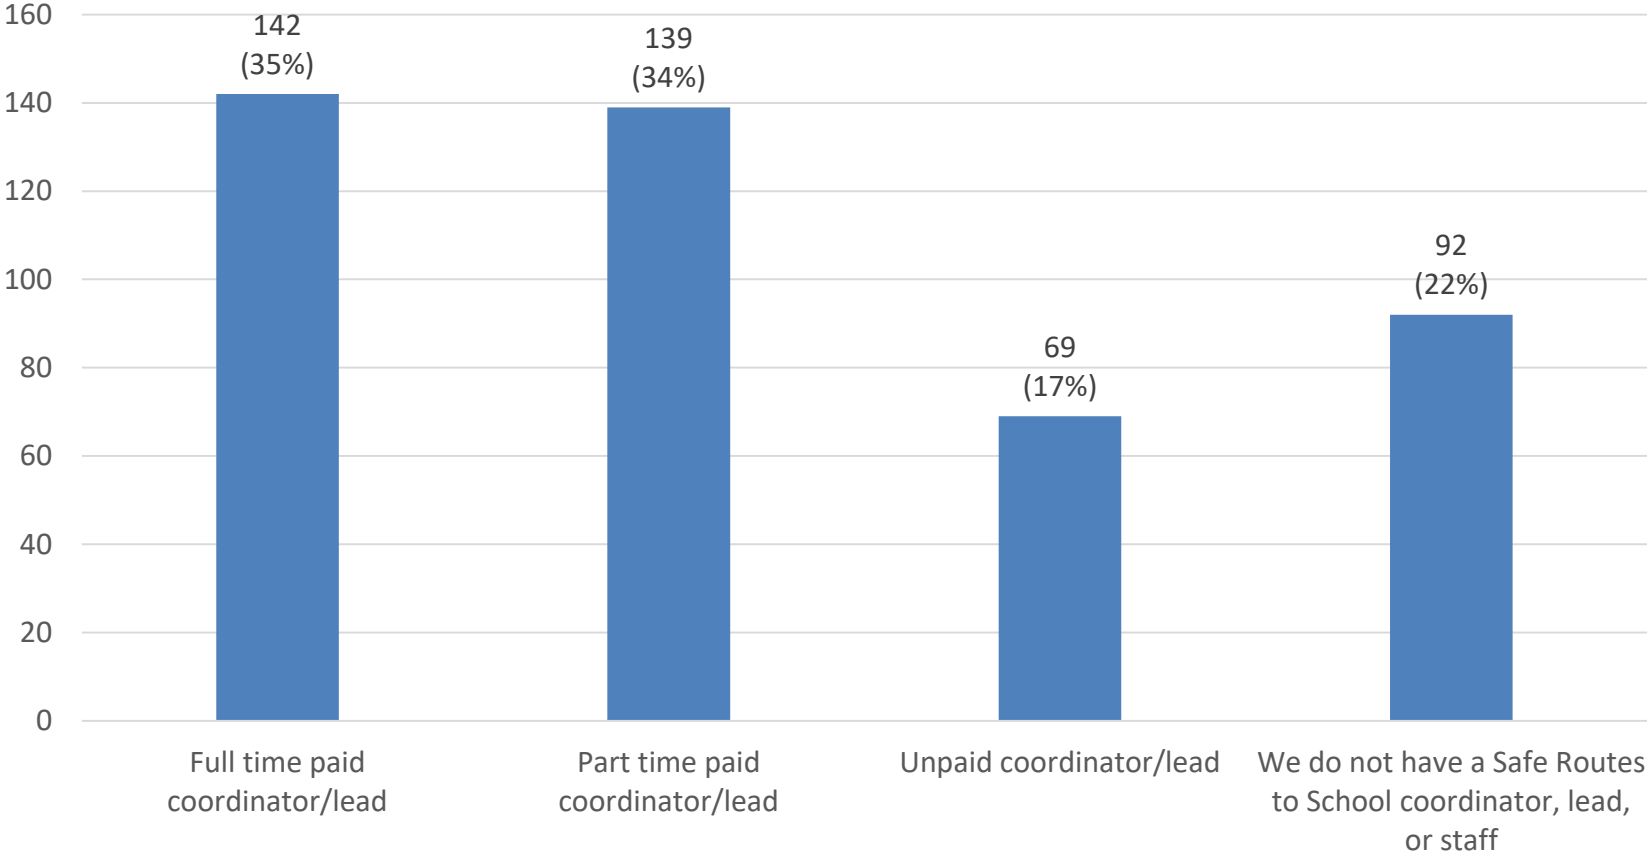

The oldest program was Palo Alto's program, which was begun in 1960 and is 59 years old!

Building Blocks

Staffing

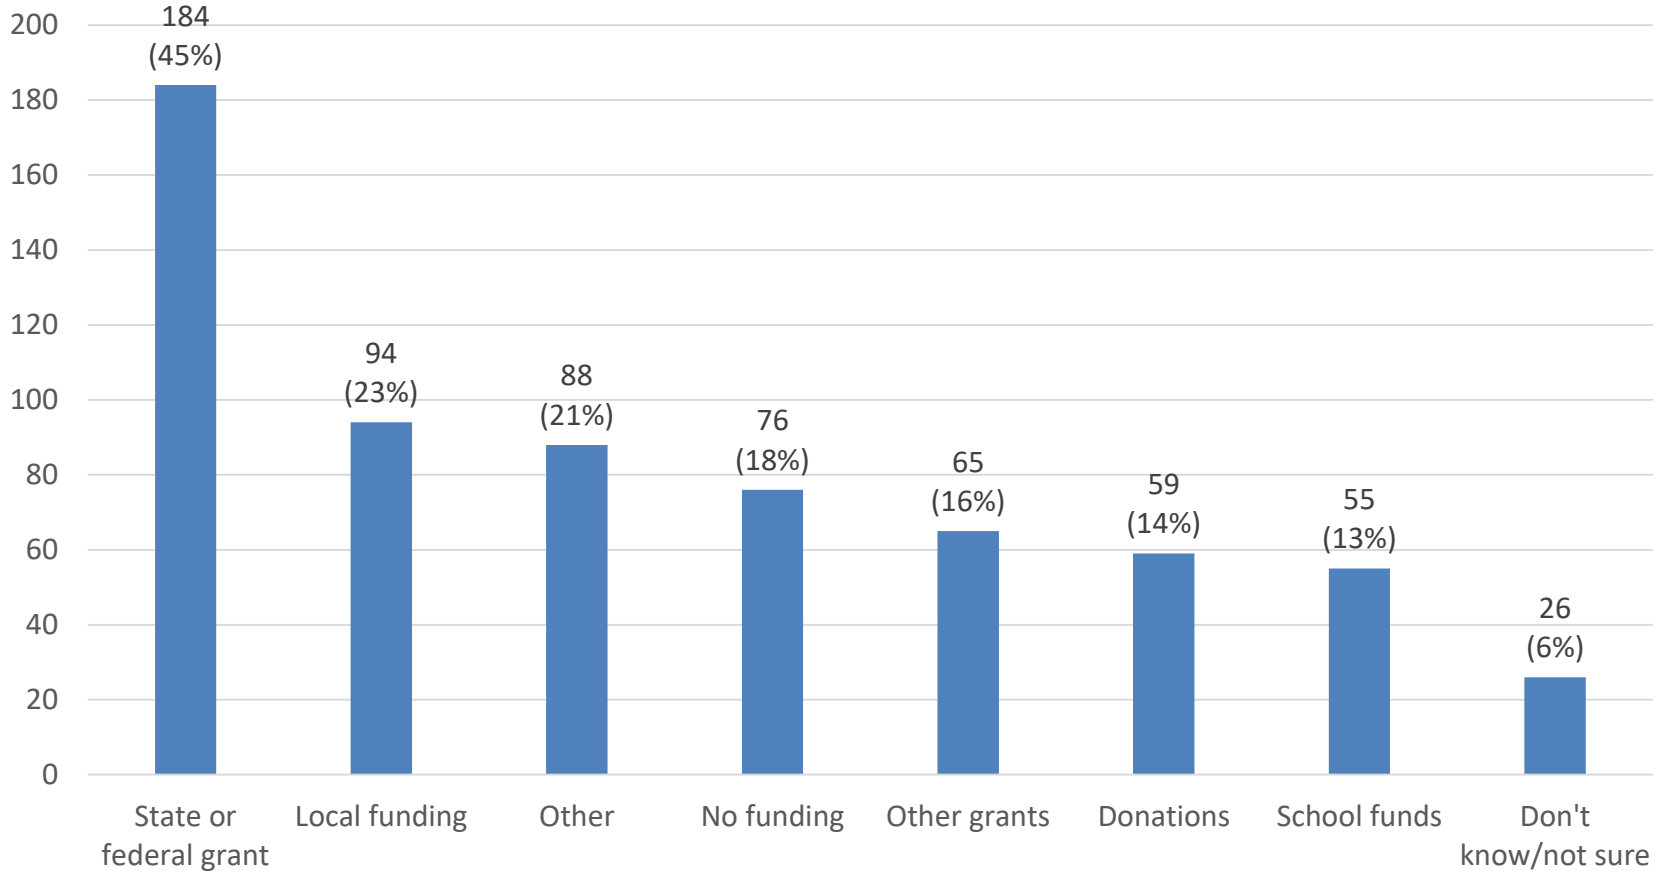

Advisory Team/Task Force

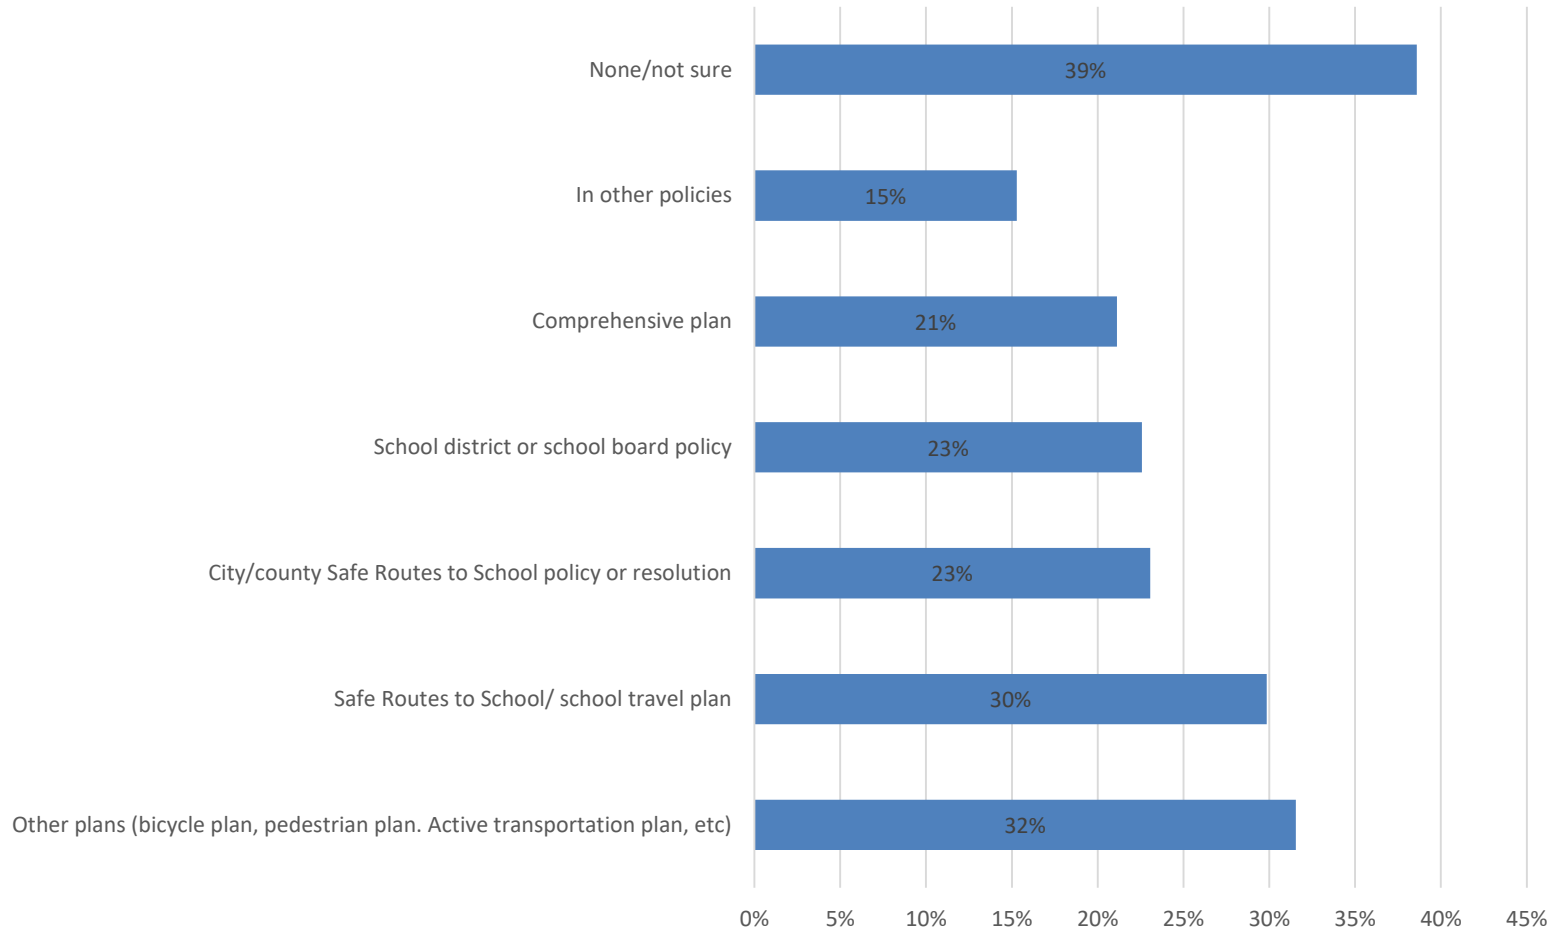

Almost 2/3s of local Safe Routes to School survey respondents have a task force or advisory team

Funding Sources

Safe Routes to School Supportive Policy Language

Program Activities

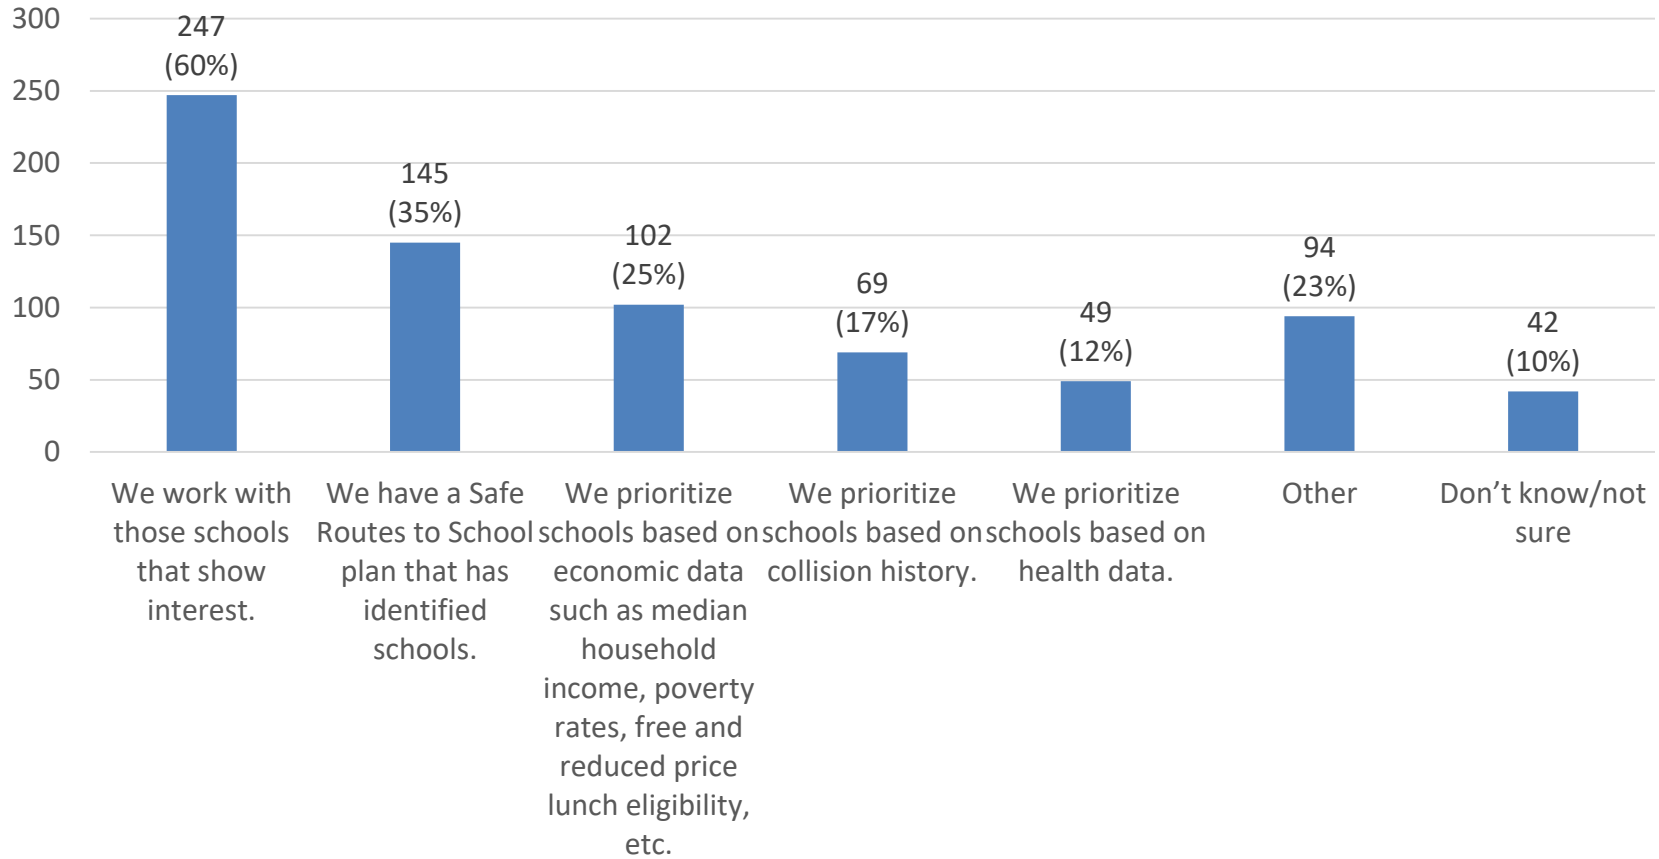

Program Activities

- “We walk FROM school - Twice a month all year long.”
- “Bike fleet of 40 bikes and helmets.”
- “Training of school staff /bus drivers with bike ped certifications and aiming at integrating bike ped safety for after school programs.”
- “Conducted walkability audits with middle school girls.”
- “We provide minor bike tune-ups at bike rodeos.”

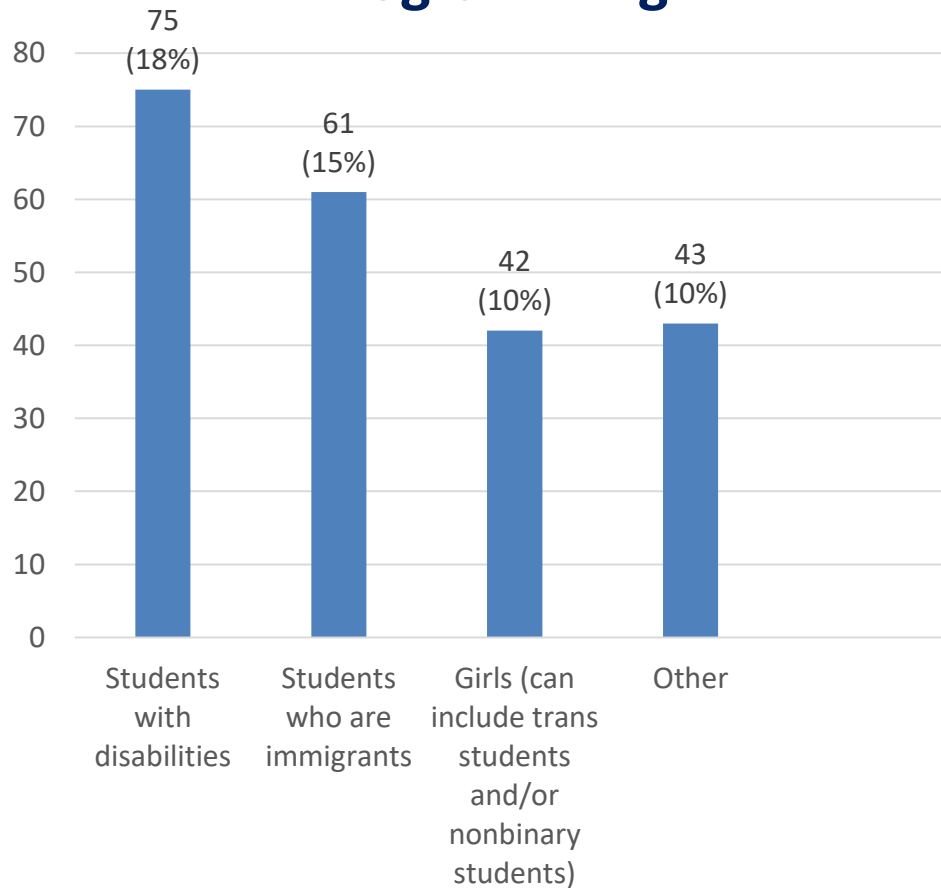

How Are Schools Chosen to Receive Services

Street Improvements

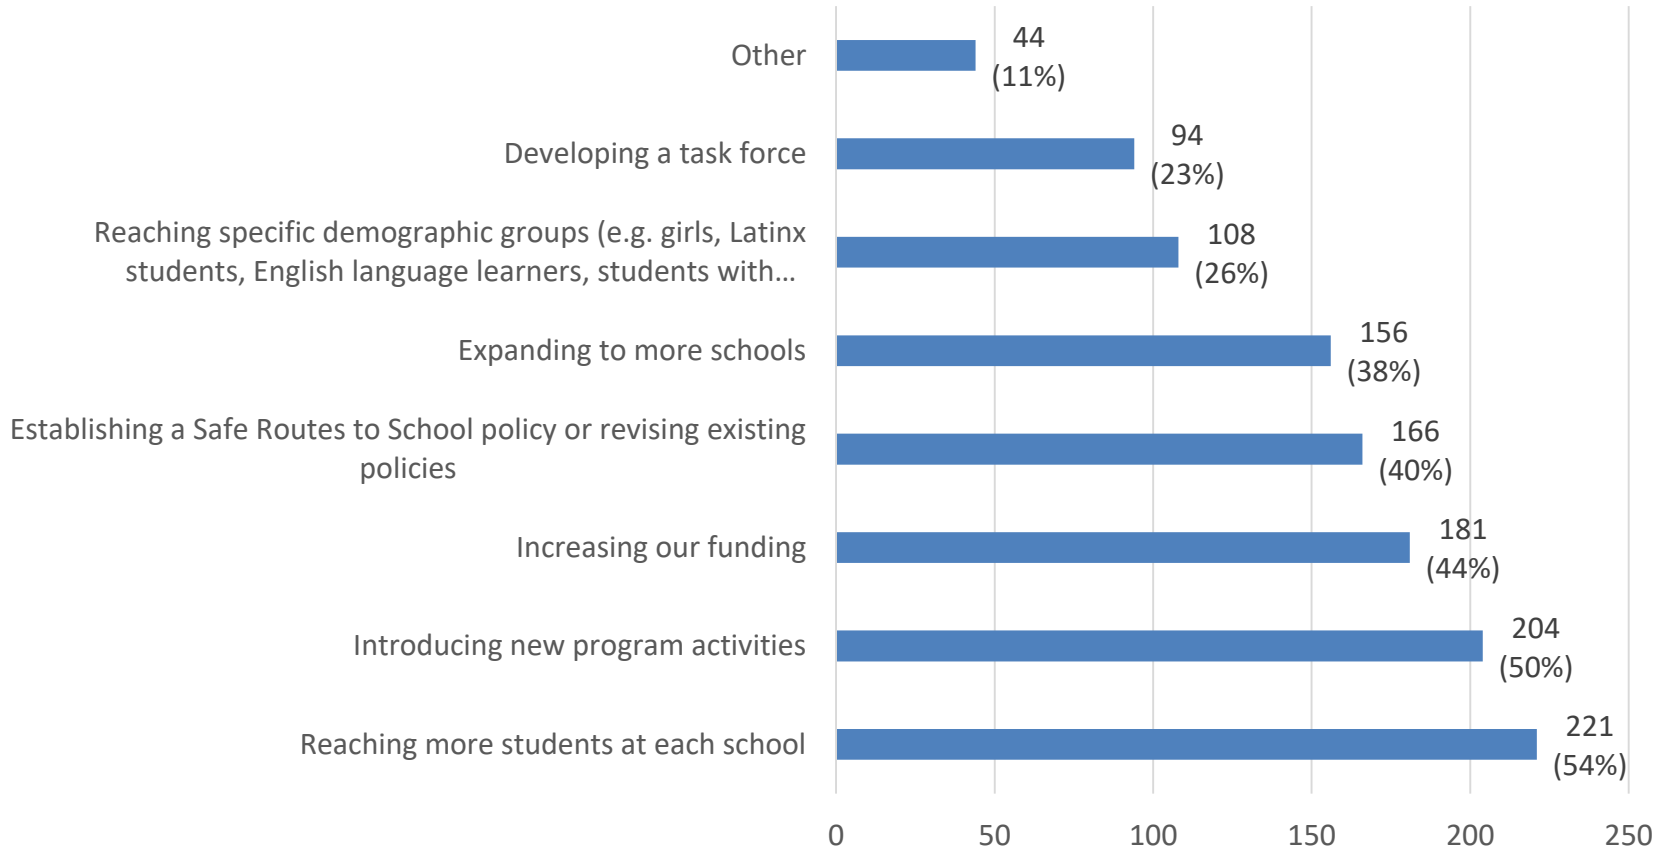

Targeted Outreach & Programming

- “We promote inclusive active transportation programs, as well as ADA-compliant infrastructure.”
- “Providing SRTS outreach materials in multi-language and video.”
- “Bike assembly, Girls on the Run, and bicycle safety.”
- “We have an ADA adaptive bike and assist with a bike education therapy group for those with disabilities.”
- “community partners have Girls Only bike rides, Women/Trans bike repair nights, and adaptive bike opportunities.”

Plans for Improvement

Open Ended Questions

Successes

- “Our tremendous partnership with public works, schools, and more have led to site assessments and implementation of short term recommendations at every school.”
- “56% of MS students bike and 51% of HS students. 65% alt mode use overall (77% middle, 70% High). Continued growth at a rate of 1% per year.”
- “Of our 40 K-8 schools, all participate in walk to school day, and 50% are working on weekly walk to school days.”

Challenges

- “When working with a large urban school district it takes almost 5 years to establish a SRTS program.”
- “Need more funding for better outcomes.”
- “Schools have so much on their plate, Safe Routes to School is always competing for airtime.”
- “The process is long and involves many organizations. “
- “The biggest issue is developing the case for change and building the political will for prioritizing walking and biking over the car.”
- “Rural schools have barriers due to distances.”

Conclusions & Recommendations

LEARNINGS

- Hundreds of great programs around the country
- Uneven geographic spread: variable strength of Safe Routes to School in different places
- Solid rural presence, proportionate to population
- 51% of programs are more than 5 years old
- Many programs without staff or funding
- Programs expressed the desire for a wide range of additional resources: mapping assistance, assistance engaging & connecting with older adults, evaluations, volunteer recruitment, funding, application assistance, more templates, etc.

CONCLUSIONS & RECOMMENDATIONS

- Some states are doing a great job of using federal money & combining different resources to provide financial & technical support for local programs; others could be doing more
- Many lessons to be learned from incredible programs around the country
- Programs need more funding, more policy support, more technical assistance, and more resources
